Doug,

The decision was appealed by the Utah Environmental Congress. Bert withdrew the decision to complete additional analysis. A decision on this proposal will be made following the analysis.

Chauncie,
We received the decision from Bert withdrawing his approval of this little venture. Does this shut down this operation or do they continue on the small scale that they were at before?
What happened to change the decision on this project anyway?
We need to know whether the permit has been canceled or what the present status of Uintah Mountain is so that we can react accordingly.
Talk to you later.

Doug
